PROJECTS

• Expense-Pro (PostgreSQL, ExpressJs, ReactJs, NodeJs)

An expense tracker website that simplifies financial management by allowing users to record, categorize, and analyze their expenses with ease, promoting better financial awareness and control.

• VoiceX - Voice assistant (Python, AI)

An intelligent AI desktop assistant crafted using Python's pyttsx3, webbrowser, smtplib, and datetime libraries. Effortlessly access weather forecasts, read out emails, set alarms, and stay organized with voice-activated functionalities, streamlining your productivity and enhancing your daily routine."

• WeatherSnap - Weather App (HTML, CSS, Weather API)

A sleek and intuitive weather app built with HTML and powered by Tailwind CSS for a modern UI. Seamlessly integrated with a Weather API, it delivers real-time weather updates, forecasts, and location-based information, keeping users informed about the latest weather conditions at their fingertips."

CO-CURRICULAR ACTIVITIES

- Volunteer, RAAHAT LNCT (An NGO organization that works for the betterment of society).
- Volunteer, LNCT RADIO (A cultural society)
